Technical Data Sheet

24 V Battery Capacity Indicator

Reference | IND24V1

The battery gauge indicates the remaining capacity of a lithium iron phosphate battery.

Technical Specifications

Product reference: IND24V1
Dimensions: 50(L) × 26(W) × 3(H) mm
Wire length: 300 mm + 300 mm, detachable

Five LEDs show the remaining battery charge when the TEST button is pressed. They stay on for 5 seconds, then switch off.

Connect the two wires to the battery.

Mount using double-sided adhesive tape or glue on a flat surface.
